

There is no other lake in Canada like Pipestone

Imagine a lake that is chuck full of fat Smallmouth & Largemouth Bass, trophy Walleye, vicious Northern Pike and monster Lake Trout. Imagine a lake where the next world record Muskie swims. Unique to Canada, the Pipestone Lake System is among only a handful of lakes in the world that support this kind of fishery. It's a veritable Crackerjack Box of fish, where a 3 lb. Smallmouth exploding on your Pop R could trigger a secondary explosion from a 5 foot Muskie halfway to the boat. Hold on to your hat and reel like hell!

Pipestone Lake is unique because of its location, size and depth. This is not your average flatland walleye pond surrounded by scrub pine. With its many islands, countless bays, inlets, rocky points & reefs Pipestone offers unsurpassed possibilities: topwater for bass in the morning, downrig for Lake Trout in the afternoon, work the reefs in the evening for Walleye ... And always be ready for those battleship-size Muskie! Located at 49 degrees North it's on the edge of the Boreal Forest, a more temperate zone that can support a wide variety of flora and fauna ... And fish! Pipestone's crystal clean waters are encased by granite bluffs, tall stands of Red Pine, White Pine, Fir, Cedar, Poplar and Birch. You'll share the lake with Moose, Deer, Black Bear, Beaver and Otter. A bird watcher's delight, Pipestone has a wide variety of waterfowl & shore birds including an incredible population of Loons & Bald Eagles.

Pipestone Lodge & cabins are also unique. Totally refurbished with all the modern amenities to make you comfortable - showers, flush toilets, refrigerators, contemporary lighting, daily maid service - yet we've maintained the look and feel of the great Canadian fish camps of the '40's - from the trophy moose head in the lodge to the knotty pine interiors and wood burning stoves. Welcome to Canada, welcome to camp and welcome to a dream fishing vacation!

Start your day with a hearty breakfast in the lodge. No trip to Canada is complete without the traditional shore lunch - fresh fish, beans & potatoes over an open fire. Back to the lodge for a hungry fisherman's dinner prepared by Pipestone Jenny & the girls. If you're on a special diet we're happy to accommodate - all others can expect to gain a few pounds! We like happy guests!

Your Hosts
Art & Jenny Perchaliuk

From International Falls cross over the border to Fort Frances. Proceed 23 miles west on Hwy 11-71. Turn right and travel 18 miles north on Hwy 71.

Turn right on Hwy 615 and go east for 13 miles to Clearwater Lake. You can park your car at Sportsman Landing - we will pick you up in our power boat for the scenic 20 mile trip into camp.
